NeerG Games History Pt:1

NeerG Games started in early January 2010 by Yethroel Arnello Stevens but today he's known as Nello Gello.

-Nello Gello Speaks-

The idea came about shortly after I was going through a stage of depression. My twentieth birthday just passed and I just wasn't happy. Then I remembered what made me happy and that was making people happy.

NeerG Games History Pt:2

-Nello Gello Speaks Continue-

Because seeing people happy and knowing that I'm the reason their happy always made me feel good inside. I love video games so I assumed other people love them as well. I then downloaded a software to create video games for the whole world to enjoy on their PC's. (Freeware)
Everyone is currently loving my latest release titled Mr Matchit!

NeerG Games=Green Games

NeerG Games (Green Games)

Every NeerG Game has green in it, so it can also be called Green Games since the logo is green and if you put NeerG backwards it is Green.

Green is also Nello Gello's favorite color and it's been his favorite color since he was a child.

Speak On Gator The Peace Walker Pt:2

Was going to be NeerG Games last game being that it is so difficult to develop, because I want tis game to have everything from multiple weapons, cash, high definition graphics and many more goodies.

I want to make people say.....

(I'm a NeerG Gamer) without hesitation, but as of now the project is at a standstill until further notice.
